

## So What Happened around the World in January re the Pluto-Saturn Conjunction – A Whole Lot and More

It is really fascinating hearing people say that very little happened in January (and into February) in terms of the Pluto-Saturn Conjunction in ‘earthy’ Capricorn. The problem is that conventional (and even alternative and social media) news fails to investigate and communicate what indeed occurred in January as a result of the Conjunction. So here is a list of what happened in January alone around the world, nevermind the outbreak of the February **coronavirus in China** (According to a number of Chinese sources over 90,000 people have been hit by the virus, and more than 1,500 people have ‘passed on’ in China [no one of course ‘dies’ since people only ‘pass on’ into their subtle bodies and subtle worlds]. The virus has now entered the UK [A medical Centre in Brighton, England, has had to close due to this issue. We in fact lived in Brighton for many years]. And **England and S Wales have been hit by major flooding**, in some cases the worst in recorded history).

### January 2020:

\* **Australia:** The worst wildfires in Australian history hitting all 6 of Australia’s counties. Half-a-million and more animals ‘die’ as a result (and who knows how many more are injured and maimed). Thousands of homes and businesses destroyed (We are not sure how many people ‘died’ and were injured in these fires but obviously a good number were. Many people suffering from smoke-inhalation ailments). Australia and its people devastated (The Australian PM is a fanatical anti-climate change guy like his buddy the Trump). The Australian economy already in dire straights (the highest foreign debt per population in the world), and its banks also in big trouble. Then the wildfires followed by flooding in many areas and also huge dust storms that turned day into night. The wildfires caused by climate change ‘super-heat and drought’ (The Murdoch-owned media [which runs Australia] claimed that the wildfires were caused by arsonists, a total deceptive evil lie. The media and PM promotes fossil/coal-burning fuel despite this catastrophe (Australia is the largest exporter of coal to China and China still has a huge number of coal-burning energy plants, although it is also a world leader in renewable energy plants and electrical vehicles).

\* **Chile:** The smoke from the Australian wildfires reaches Chile and creates similar smoke-inhalation ailments. Floods and wildfires also hit Chile.

\* **Indonesia:** The capital Jakarta has a huge devastating flood, one of the worst in its history (Similar devastating floods hit the Midwest USA and Iran and India and other countries in 2019).

\* **Earthquakes hit Puerto Rico, Mexico, Japan, the Philippines and (in February) Turkey**

\* **Spain:** Sea-flooding hits a number of coastal region towns.

\* **Brazil:** Flooding and huge landslides

\* **Madagascar:** Major flooding in various areas (Huge floods hit Zimbabwe and Mozambique in 2019)

\* A massive plague of desert locusts (billions in number – as large as whole cities) hit (in February) Eastern Africa (**Kenya, Tanzania, Ethiopia and Somalia**), resulting in crops being devastated, and causing major food problems for these countries in the near future. The major cause is climate change (heating up of the weather) which the Australian wildfires contributed to (All things are interconnected, including of course the ‘weather’).

\* **UK:** In February major flooding hits England and S Wales, and the coronavirus hits a number of people in England (in Brighton, etc). Three young people (including the female producer) involved in the TV series ‘Love Island’ commit suicide. (The female producer had viciously attacked her male partner while he was asleep, and had been arrested by the police, and this added to the reasons for her suicide, although her involvement in this idiotic self-destructive TV series must of influenced her state of mind). No one seems to bother informing the media and population of the UK that there is a suicide epidemic in the UK (and USA/etc/etc) and it is not simply ‘attractive’ (?) celebrity’s who commit suicide.

\* **USA:** The dark Lodge begins its attempt to take over the so-called US democratic elections by bringing in two ‘democratic party’ (?) men who are obviously dark agents, one a member of the CIA (and backed by a group of billionaires) and the other a multi-billionaire (Michael Bloomberg). This is an obvious conspiracy to make sure that either Donald Trump or one of these two bombastic war-mongering men win the 2020 elections. Bernie Sanders is by far the most popular politician and Presidential candidate but it is obvious that the dark Lodge will do all in its power to bring him down. Meanwhile the Trump is breaking every law possible and trying to create a Trump-style dictatorship in which even the US Justice Dept comes under his direct control. US economists are all predicting a 2020 economic collapse and coming depression and when this occurs it will of course ‘change all things’ political, economic and social.

### **Worldwide Mass Demonstrations**

Throughout 2019 and into January-February 2020 there have been mass 'people rising-up power' demonstrations around the world, which are directly in tune with the Pluto-Saturn-Mercury conjunction.

- \* **Climate Change demonstrations in many countries**, including by schoolchildren on every Friday (initiated of course by Greta Thunberg and other amazing young people). These will carry on throughout 2020 and onwards and many more young people (in their millions) will join in
- \* **Climate Change 'Extinction Rebellion' demonstrations**: Begun in the UK and spreading to the US and many countries and capitals, and carrying on>>>>
- \* Sudan - with a resultant change in government, plus the ex-warlord leader of Sudan being arrested by the military and being handed over to the International Court of Justice for 'crimes against humanity'.
- \* **Algeria** - with a change in government and continuing mass demonstrations on every Friday until the people get the government they demand. Children/young people also involved.
- \* **Lebanon** – led by some amazing women, and a change in government and demonstrations carry on
- \* **Chile** – at one time a third of the population (over a million people) on the streets. A new Constitution to be written by all the parties (including a section of ordinary people).
- \* Huge demonstrations also in **Columbia, Ecuador, and Brazil** (ex President Lula freed from jail after such demonstrations; he was convicted illegally and jailed in order to prevent him from running for President as he was/is by far the most popular politician in Brazil).
- \* **Hong Kong** – huge demonstrations largely by young people resulting in major changes by the Hong Kong government (It is said and proved that the US Administration was behind these demonstrations although the issues were valid and they have awakened a whole generation of young people)
- \* **France** – huge ongoing demonstrations by the 'yellow vests' and 'unions' (etc, etc) against the austerity measures of the Macron Government (The super-rich and rich do not of course suffer from these austerity measures, only the poor and middle classes do, even though it was the 2008 meltdown of the banking/financial system that resulted in these austerity measures in the UK/EU/US/etc)
- \* **And many more to come as we move through 2020**

So to people who say 'nothing much seemed to happen' as a result of the Pluto-Saturn conjunction in Capricorn (governing politics>economics>ecology>society as a whole) – see **Above**, and we are only entering the **real 2020 New Year on March 21**, when things will really 'Rise Up and Take Off', and this will include an economic meltdown and collapse sometime this year (See **The Atlantic Report** and **Prof Richard Wolff**, etc, etc on UTube)
