

The Global Birth Chart for the **Jupiter-Pluto** Conjunction on April 5 Date – April 5, Time – 2.46 am GMT, Place – London

Here are some of the most significant facets of this Global Birth Chart for the coming April 5 Jupiter-Pluto Conjunction in Capricorn. This Conjunction will unfold the whole year and will have two more conjunctions **end June and November 12**. So there will be **three unfolding stages of its impacts and repercussions** – April 5 to end June; beginning July to November 12; and November 12 to December 21. As always when one studies this type of cosmic (ha ha) information one needs to apply both ones intelligence and intuition – the Intuition synthesises and ‘grasps’ what the intellect cannot. What lies behind objective exoteric life – the inner ‘esoteric’ Life – reveals the (hidden) divine Purpose, and it requires the *Intelligence and Intuition* to Perceive this. And then to Trust this Revelation (and not to be bothered if people think you are crazy – as the saying goes ‘*Blessed are the cracked for they let in the Light*’, and these dire days if you are not cracked you are in deep trouble).

We would also like to emphasise that we are working with the **science of the Soul and Soul-based astrology** (which has its foundation in the Arcane Teachings of the Tibetan Master DK and in this case ‘Esoteric Astrology’) and this is very different to traditional astrology and even overall-based spiritual astrology. For example the vast majority of astrologers do not take into consideration the **Knowledge of the Soul** (‘Who and What’ is the Soul in Reality) and the **Knowledge of the Christ/World Avatar and His coming Appearance to inaugurate the new Age of Aquarius**. In fact many astrologers do not even ‘believe’ in the Christ or the Superhuman (Inner Government) Kingdom of the Planet. In this sense ‘esoteric’ astrology and the science of the Soul differs greatly from normal astrology. From the very beginning of my (Errol) study of astrology (45 years ago) I made the decision to go to the **core** of this science and it was only when I began to study the book ‘Esoteric Astrology’ that I knew I had discovered this **core**.

Soul-based (esoteric) astrology is a science. In fact it is called in the Esoteric Teachings the ‘royal science’ and the oldest of the sciences. It functions throughout the **Universe** and not simply on this small planet. One of the most important facets of this science when it comes to **Birth Charts** (of humans, nations or events) is the **Ascendant or Rising Sign** (or zodiacal Sign ‘rising’ on the Eastern horizon of the Earth at the time of ‘birth’ - or the date/time/place of ‘birth’). Esoteric astrology has a very different interpretation for the Rising Sign than traditional astrology. **The Tibetan Master DK** (who is said to be the Master Astrologer of our Planetary System) says that the **Rising Sign** (which **Starts Off the Birth Chart - ‘What Comes First is First’**) is the central indicator or Revelation of the actual **Purpose** of the Individual/Nation/Event. In other words, from the point of view of the Transpersonal Soul (the Silent Watcher), the Rising Sign reveals the actual (higher) Purpose of any Event, as with the Jupiter-Pluto Conjunction in Capricorn. When one plots a Birth Chart for the Planet/Humanity as a whole one has to use **GMT** (Greenwich Mean Time or London as the Location of Birth). The Birth Chart I plotted for the **January 12 Sun>Saturn>Pluto>Mercury conjunction** has proved to be right on. Of course one also has to **interpret** the Chart from the perspective of the **Soul** (Collective/National/Individual) and not from the perspective of the personality, and most astrologers do not realise the difference, and there is a huge difference, for the Soul/Cause/Overall Purpose is very different to the personality/effect/expression.

In the January conjunction **Capricorn was the Sun sign** (= personality/ego) which was coming under the destructive meltdown of **Pluto** (Sun-Saturn conjunct Pluto). In the **April 5 Jupiter-Pluto conjunction Capricorn is the Rising Sign** (higher Soul Purpose), which makes a huge difference to the Birth Chart of this conjunction (Traditional and other astrologers often do not recognise this huge difference and would interpret Capricorn is the same way re the Sun sign and Rising Sign, failing as such to realise that the **Soul of Capricorn** and the **ego of Capricorn** are **not the same**, in just the same way that the Human Soul and human ego are not the same).

‘The Unexamined Life is not worth living’ - Socrates

‘Blessed are the Meek [strong and wise in Heart-Mind] for they shall inherit the Earth’ - the Christ

‘The Times-they-are-a-Changing’ - Bob Dylan

* **Rising Sign: Capricorn** (Normal Midheaven/MC/Highest Point/Mountain Peak of the Zodiac).

Spiritual Keynote: *‘Lost Am I in Light Supernal yet on that Light I turn my back’*

Lower ego keynote: *‘Let ambition rule and yet the door stands wide’*

Page 2

Ruling Planet: Saturn (Sub-ruling planet - Mercury)

As we have shared above the **Rising Sign of the Birth Chart is the central revelation of the higher Life/Spiritual Purpose of the Event (be it of a human/nation/event)**. This Capricorn Rising Sign once again indicates that humanity has reached the *relative ‘mountain peak’ of its cyclic evolution*, in terms of the *end of the Age of Pisces*, and that, as such, it *cannot go any further along the same line of evolution*. Thus all is *dissolving and collapsing* that is of the *old, outdated, completed and corrupted*, and the present>future global pandemic in all its varied manifestations is connected to this ‘death’ process. This for the human race, nations,

governments, religions, society as a whole, politics, economics, etc, and all humans, no matter who. The only Way to pass through this great 'death-rebirth transition cycle' is to be a part of the new present>future and let go the completed past.

The **higher Soul Keynote** indicates the same – humanity (everyone, personally, and nations, etc) has reached their **relative Mountain Peak of attainment** – their so-called relative *Light Supernal* (and this of course differs for everyone depending upon their state of consciousness and attainment) and, as such, must 'turn their back' on any further evolutionary advancement and '*come down the mountain into the valleys to serve their fellow humanity*' (in whatever way possible). The **pandemic crisis** is sure forcing people to do just this for now '*We are all Alone - and yet Together*' - *as One Global Family and Community*. Pandemic viruses and global economic collapses do not recognise borders and humanity is forced to recognise that we **Live on One Planet and are One Human Family/Community** (The Trump Administration and certain other Governments [UK/Israel/Saudi Arabia/Brazil/Etc] are refusing to recognise this fact and they and their nations are going to pay a deadly price for going against divine Purpose. They already are, as we can see from the situation in the US/UK/Israel – it is said that about 70% of the Israeli population has the virus, and it is spreading like wildfire across the US/UK and of course Italy/Spain/France/Germany/Etc). In other words the only safeguard for the present>future pandemic meltdown and collapse of the old Pisces Age order is to *Serve the Greater Good of Humanity and the Planet*. Those nations, governments, people, religions, etc who do not understand and do this are 'out of alignment with divine (God's) Purpose' and will suffer the natural consequences.

In the **January Conjunction birth chart** and this **Jupiter-Pluto birth chart** the **North Soul Node (higher life vocational/dharma) is in Cancer**, the sign governing 'mass' consciousness and humanity as a whole, indicating that we have to 'put our ego-based selfish [personal/national/racial/religious] interests aside' and Serve our fellow humanity in whatever way we can. This of course includes those humans who are nearest to us, as they are our localised humanity. And it also includes the recognition that we/humanity **Live on One Planet and are One Interconnected Human Family/Community**. This in turn includes the ending of all conflicts and wars (political/economic/military/etc) between the nations. Once again those nations that do not live up to this divine Purpose will pay a deadly price, for this is the time when **God Will No Longer Be Mocked** (although God cannot be mocked – if God could be mocked He/She would not be a God/Goddess. Also God/the Logos of our Planet, does not get angry or revengeful or upset – humans project these ego traits on to God, but God is beyond all human traits. Those people/nations who go against God's Will/Purpose are not punished by God – by going against this Will they automatically pay the price).

The **lower ego keynote** says '*If, in this case, material selfish ambition still rules, the door (to enter the New Age of Aquarius) will be closed*'. Thus the Master DK's statement that '*One-Third of humanity will be held back*' (and not be allowed to pass through the door into the New Era). Say no more (To clarify – the Tibetan Master DK is the 'executive' Master of the Inner Spiritual Government of the Earth. This Inner Government meets four times a year in **Shamballa** (the crown Centre of our Planet), at the time of the Equinoxes and Solstices, and also **once every 25 years** in Shamballa. The next major Shamballa Council will be in **2025**. At these Councils this Inner Government shares how best to unfold the divine Plan for humanity. Once these Plans are formulated they are given over to the **Master DK** to communicate to human agencies (Alice Bailey, via the Arcane Teachings for the New Age, was the last such agency. Other agencies are also communicated through via one or other means – the written or verbal word, IT, etc). At certain times these Superhuman Agencies (which include the Angelic Kingdom) *interfere* in human evolution, to intensify and accelerate human evolution. As with the present>**future**. When DK says that '*One-third of humanity will be held back*' it is because the Shamballa Council has made this decision. This might sound cruel but the destructive nature of the human ego and psychopathic national leaders and their ongoing bloody wars [etc, etc] will no longer be tolerated. These people have been given enough warnings and have failed to learn the required lessons, and so, for them, the 'door into the new Age has been closed' and they will be held back for 1,000 years and transferred to other systems during this time (Thus the statement in the New Testament that '*Lucifer will be banished for 1,000 years*' as Lucifer represents these selfish material forces). Time for these murderous psychopaths to learn Who Holds the Real Power in our planetary System ('**All Power comes from Above**' - the Christ). This also applies to all ordinary people who choose a selfish material/ego life and care naught for the greater good of humanity and this Planet. '*Humanity has entered the Wilderness Experience and in the Wilderness ...all must now Choose Who he/she Serves*' (or, as Bob Dylan once sang, '*No matter who you are you are going to have to Serve Somebody – either the Lord or the Devil*').

* **Saturn is the ruler of Capricorn**. The ruling planet informs us more directly 'how' this Capricorn energy will *purposefully* manifest itself. **Saturn has just entered the 11th sign Aquarius** (on March 23) which is connected to the intelligent, well planned, well-organised, practical (Saturn) service of the new humanity (Aquarius), and is very much attuned to the keynote '**Alone (= Saturn) but Together - As One National and Global Family**' (= **Aquarius**). This is the keynote of the **lockdowns** around the world and thus too the Wilderness Experience – of *Human Beings being in lockdown (Alone) but also Together – as One Interconnected Supportive*

Service-Oriented Global Family (The **April 4/5 Global Meditation** aimed at getting millions of people to meditate at the time of the **Jupiter-Pluto conjunction** is a great attuned example of this. We sent this link to all of you).

Saturn and Mars will be in conjunction in Aquarius at this time. What is fascinating about this is that **Saturn governs the Rising Sign Capricorn** while **Mars governs the Sun sign of the chart, Aries** (Notice the two colours – very different). This means that the **Soul (Capricorn Rising)** and **Personality (Aries Sun sign)** are in fact in **co-operative co-creative integration**, which is a very positive sign. Also that the **Wise Powerful Superhuman Forces** (Capricorn) and the **human pioneering forces** (Aries) – conjunct/working together in the sign of **Aquarius**, are now *coming into alignment*. People of all ages – older wiser generation (Saturn) and younger passionate pioneering revolutionary generations (Mars) will be working together to co-create the ‘seeds’ of the new **One Spirit/God - One World - One Humanity** (Keynote of Aquarius). The *pandemic crisis* and the *Wilderness Experience* (ongoing lockdowns and their consequences and tough lessons) will bring this about, be it via forced means. In this regard the **Capricorn/Saturn** keynotes should be remembered and adhered to: ‘*Discipline is Freedom*’ and ‘*Patience-Perseverance-Persistence*’. And the same with **Aries/Mars**: ‘*Courageous one-pointed pioneering action that serves the new present-future and the greater good and freedom of Humanity and the Earth*’. Both go together, be it that they are very different (In normal circumstances these two signs are in ‘90-degree square’ or conflict, but in the above regard they are now functioning together. Be aware as these two different interconnected forces occur in one way or another in your lives, and in the life of your nation and humanity).

Also in the Birth Chart Saturn-Mars are in Aquarius (an ‘air’ element sign) and they will be in positive-flowing (‘120-trine’ aspect) to **Venus in Gemini** (another ‘air’ sign). This indicates that older and younger generations/people (Saturn and Mars) and men and women (Mars and Venus) will be in attunement in bringing into ‘seed’ manifestation the new Age of Aquarius – re the lesson of the global crisis – **One Spirit – One Planet – One Humanity**. This might be happening behind the scenes (as re the Global Meditation and other spiritual educational-communication-linking energy), but it will be Happening. It is the **higher Purpose of the Jupiter-Pluto Conjunction**, and the Pandemic and the Wilderness Experience/Lockdowns. It might be that this radical crisis, heavy restriction (and forced self-discipline) and resultant suffering will force this huge transformation but this is the Purpose of the whole divine Drama. ‘Air’ governs the mental planes, the mind, mind-to-mind communication, IT (which is actually mind-to-mind communication), so this ‘communication’ will be the medium through which the above process occurs. As the Master DK said (re the Wilderness Experience) ‘*....thus will humanity enter the evolution of Mind*’. Aquarius is an ‘air’ sign connected to Mind/Mental>Knowledge Evolution. At this stage humans think that IT is ‘knowledge’ but this is only material-based knowledge, and not greater Life-Based and Spiritual-Based Knowledge. Humanity is now being forced to integrate these two facets of interconnected **Knowledge-knowledge**, and not to simply focus upon mind-knowledge. In this connection humans will discover that Alignment to and Partnership with the Higher [Immortal All-Knowing] Collective Self is the essence of this higher Knowledge. As the lockdowns continue to occur (the virus is not going away – it has Purpose) and the human ego becomes more and more distraught this Vertical Relationship>Partnership will become the only **Saving Grace**. When the Christ says ‘*I Am the Saving Grace*’ it means two **interconnected** things: **The higher Christ Self/Soul is the Saving Grace for the individual (partnership/family). And the Planetary Christ (the head-heart of the Superhuman Kingdom of the Earth) is the Saving Grace for humanity. Real LOVE and WISDOM and PEACE and GOODWILL and SERVICE are the qualities of the Christ and Christ Consciousness (The colour Blue is the hue of Christ Consciousness).** The old man-made religions (of the outgoing Pisces Age) will have to learn that this is the true meaning of LOVE (the unifying Force of all creation) and that LOVE comes before all religious ideologies and beliefs (We have seen in our local area religious Jews, in their fear of the present situation, putting on their religious gear and praying to their god, (and the same situation with Christians/Muslims/etc) as if this can protect them from what is happening. LOVE (as indicated above) is what can help them and everyone and not retreating back to old outdated ideologies and beliefs, that have in fact caused many of the religious-based wars of the past and present. The New One World Religion is based upon this deeper understanding of LOVE and LIGHT/Higher Intelligence).

* **The Jupiter-Pluto Conjunction is in the 1st ‘house’ of the Birth Chart.** The 1st ‘house’ is the central focus and purpose of the whole chart/event. Both planets are moving through Capricorn and Jupiter (a much faster-moving planet than Pluto) is now coming up to meet/conjunct Pluto (in 25-degrees Capricorn, just in case anyone has placements in this degree in their birth charts. After this conjunction Jupiter moves on and reaches 27-degrees Capricorn before it goes ‘retrograde’. Only on **December 21 do Jupiter and Saturn made exact conjunction in Aquarius.** See more on this important conjunction later on). What does it mean when **Jupiter/Zeus (sacred planet/governed by Ray 2 of Love-Wisdom/the planet of Christ Consciousness)** comes into conjunction with **Pluto** (the Lord of the Underworld/the Shadow)? It means that the **Forces of Light>Love** are about to make their

Presence felt far more directly – both in terms of the Soul (for individuals/couples/networks) and the collective Soul of humanity, and in terms of the (Planetary) Christ and the Angels making Their Presence felt. This might even include a number of the Masters of the Wisdom making Their Presence felt in some way or other. In other words the **Forces of Light** are about to come more directly into relationship with the Forces of Darkness/Shadow (Pluto) and the **Global Battle is about to intensify** as a result. Be aware of this and let people know about it. It is very important because the influences of this conjunction are going to manifest throughout 2020 as **Jupiter-Pluto make three conjunctions this year**, and therefore have three unfolding manifestations (April 5>>>beginning July>>>>November 12, unfolding through to December 21).

As Jupiter and Pluto come into conjunction (April 4/5) certain events will occur (inner and outer) that will reveal what these manifestations are and are going to be throughout 2020. Some of these events (inner/dreams/intuitions/etc and outer/in society/nations/planet) might take people completely by surprise, and some might even be mystical and apoca-lyptic (= New Revelation). We might refer to these coming events as the ‘quickening’ - in terms of the coming Appearance of the World Avatar. Be Awake. Be Intuitive. Try and recognise these events, within ones own life and in the life of the nation and humanity, for they will reveal what is unfolding throughout this year. The forces of Darkness (= selfish materialism) will naturally try and hold on to their material power, and bring their plan to bear to control humanity and global resources (as many people are now aware of), and they will try and use the pandemic and lockdowns to do this, but they themselves are in **Catch 22** – if they stop the necessary lockdowns the virus will quickly spread here-there-everywhere and the global economy will go into massive meltdown; if they keep the lockdowns the same will happen. And while this is occurring the Light Forces will start their more direct ‘externalisation’ which is part of the divine Plan for the coming Appearance of the Christ. Also the higher Selves (Solar Angels) of humans will start to make more direct contact with their human selves and provide guidance and protection, and counteract the plan of the dark Forces. Watch for strange and mysterious events in this regard, personally and globally (In this regard the Jupiter-Pluto and Saturn-Mars conjunctions are interconnected, so study them both to get this bigger picture).

*** Neptune-Mercury in Conjunction in Pisces in the 2nd ‘House’**

*Our revels are now ended. These, our actors,
As I foretold you, were all spirits and
Are melted into air, into thin air.
And, like the baseless fabric of this vision,
The cloud-capp'd towers, the gorgeous palaces,
The solemn temples, the great globe itself ---
Yea, all which it inherit, shall dissolve,
And, like this insubstantial pageant faded,
Leave not a rack behind. We are such stuff
As dreams are made of, and our little life
Is rounded with a sleep.*

(Shakespeare - The Tempest; a most poetic wise apt quote for the present times)

As we shared earlier **Mercury** is the *sub-ruling planet in terms of the Rising Sign* (This is because the conjunction is in **25-degrees Capricorn**, bringing in the sub-influence of **Virgo**, the 3rd earth sign after Capricorn [Capricorn>Taurus>Virgo], and **Mercury** rules Virgo). So this placement of Mercury is very significant in terms of the higher Purpose of this conjunction, and **Mercury & Neptune are in conjunction in Pisces in the 2nd ‘house’**. This ‘house/sphere of human life’ is connected to ‘values’ as a whole, material values, and thus to all issues related to money and finances, work>employment, possessions, the whole economy and thus too Stock Exchanges, Banks, etc). **Neptune-Mercury conjunction in Pisces** equals a *complete ‘out-of-control’ breakdown, dissolution and collapse of the old economic system*, with its old corrupted greed-ridden values and ‘way of life’. This out of control economic collapse will literally occur as this conjunction impacts and over 2020. This is a vital facet of this conjunction chart re the sub-influence of **Mercury**. Pisces is the final sign of the zodiac (and thus too the Age of Pisces), and **Neptune rules Pisces**, and Neptune IS the planet of *dissolution and collapse* of that which is old and outdated and corrupted. Our modern-day economic system is totally corrupted, as can be clearly seen by what has happened in the US (which controls this system via the Federal Reserve and the \$ as the world exchange currency). The FR and Trump Administration and US Congress has just given Wall Street (= the Corporations and the 10%) and the Banks \$4.2 trillion, while giving US citizens \$1,200 – this during a time when it two weeks 10 million US citizens have lost their jobs and become unemployed. This is a greater employment loss than in the 1929 great depression. This (one-off \$1,200) is beyond a total disgrace, and only goes to show that the US and the present US/Global economic system is totally corrupted, and will now collapse into total chaos, no matter how the FR tries to stop this total meltdown. The printing of all these trillions of \$’s has devalued the \$ and it will soon collapse as the world exchange currency. This will also cause massive inflation, which means prices going up for

all goods (including food/etc), which will hit the poor and middle classes and unemployed (and not the rich). In a few weeks the US unemployment will rise to + 30 million and once people cannot pay for their rent/food/cars/insurance/etc there will be revolution in the US (and other countries). The moment the lockdowns end the peoples-revolutions will begin for people who are starving have nothing to lose. And if the lockdowns continue the economic system will also collapse so **Catch 22**).

Neptune is also the planet associated with *deception and self-deception*, and the ‘communication’ (Mercury) of such deception. The US economy is already **bankrupt**. US national debt is around **\$23 trillion**. The same catastrophic national (and consumer and corporate debt exists in all the major economies and not just in countries like S Africa, etc). The printing of trillions of \$’s and Euro’s by Central Banks to ‘save’ their economies is a form of *grand self-deception* and high-scale corruption, and a perfect example of just how totally corrupt our present market-force economic system is. Once this peoples-revolution begins Trump will be hung out to dry. He will go down as the worst President in US history, but many other corrupt national leaders will go down too. The old systems are finished and belong to the bygone past. Pisces energy is being rapidly withdrawn by the Spirit of Pisces and as this occurs all that was part of this corrupted system collapses. When **Mercury** (perception, thinking, emotion, decision-making, commercial considerations) conjuncts **Neptune** (confusion, lack of any clarify, dissolution, collapse, chaos) there can only be one conclusion – all goes down the drain; unemployment goes haywire, hundreds of millions of businesses collapse everywhere, payment for rent/mortgages/cars/insurance/etc/etc cannot be paid by tens of millions of people working in industries that have had to close (due to the lockdowns, etc). Many of these people have family and friends in the police and armed forces, who are not going to be at all happy at this situation.

This of course is also a globally-corrupt phenomena. **Authentic Democratic Socialism** (= a system of relative economic equality for all citizens) is the only hope, and even the media are now seeing that Bernie Sanders is right in his political policies (Bernie has been pilloried by the media, and cheated and illegally replaced by Joe Biden, a crook and knave who is as bad as Trump. **The US is about to fall apart** and undergo its second national revolution. The coronavirus is already hitting the US more than any other country, including China. Millions will soon have the virus and many will ‘pass on’. Trump is a war-criminal, against his own nation, which is the US ‘reaping what it has sown’ by warring illegally against so many other nations. Fascinating that at this time Bob Dylan has brought out his song ‘Murder Most Foul’, about the assassination of John Kennedy, which is awakening Americans to their ‘most foul shadow’).

Mercury was of course also in the Saturn-Pluto conjunction in January. Mercury is called the **Messenger of the Gods**, so the Gods are sending a clear Message – the old corrupted unjust economic system is finished and dead. It cannot be saved, and all deceptive self-deceptive attempts to do so are futile. The old forces trying to save this system cannot be blamed for trying to save it – it is all they know and of course its collapse terrifies them as they thought they could control the whole system, even in times of huge crisis, but they did not plan for a virus pandemic. The coronavirus carries Purpose. It cannot be ‘fought’ as in a normal war. It is far too potent and clever and can strike whenever and wherever and whoever. It has not been sent by man – it has been sent by the Gods. Go to UTube ‘Ralph Smart’ - a jolly fun-filled wise Brit who shares some fine wisdom about the present times, which co-insides with this conjunction).

The Religious Equation

The **Mars-Saturn conjunction in Aquarius** is simultaneously ‘seeding’ the new incoming Aquarian economy. Keynote: **‘Live Simply and Ecologically and Elegantly – so that Others might simply Live’**. Humanity will now have to learn to do this, which includes accepting this new system. People and Governments and economists (etc) who try to hold on to the old corrupted system will find it dissolving and collapsing around them, and all attempts to save it are **doomed. Apoca-lypse** - New Revelation is here, including the Apocalypse of the New Economics and Way of Just Balanced Living. Best to accept this with Joy and a spirit of Courageous Adventure. The Prophesies of the Christ, the World Avatar, are now Coming to Pass. Sine **JUPITER** is the planet of the Christ, and Jupiter is now coming to meet Pluto, the Forces of deception and darkness (Pluto) are about to meet their match. And learn, to their dismay, that God is not Mocked. And this by the way includes the old religions as **Jupiter and Neptune both govern religion**. The followers of these religions, especially the three ‘religions of the book’, are arrogant to the extreme, presuming they know God (they have no idea who God really is), and also presuming that the coming Messiah/Avatar is coming to ‘save’ them and their religion (and God help the other religions). The World Avatar is not coming to ‘save’ them – He is coming to ‘save>serve’ All Humanity. The PM of Israel, Netanyahu, consistently refers to the Jews/Israeli’s as God’s Chosen People, and says God will protect Israel. And this while Israel kills tens of thousands of Palestinians, including women and children, as if these people are not humans, and not also God’s creation. If this is the case how come the God of the Jews did not protect them over the centuries, or now, with coronavirus? Ignorance and arrogance to the extreme. But the Christians and Muslims are the same – stuck in outdated arrogant religions they make ignorant claims about their specialness in God’s Eyes. The old **man-made** religions are for children and not for free-thinking responsible

adults. The new Aquarian Age religion is God-Made and will unite all humanity. This **Jupiter-Pluto conjunction** is also signalling the collapse of the old exclusive religions and the birth of the new One World One Humanity religion. THINGS are about to speed up in a way far beyond human imagination, and many huge surprises are about to hit humanity. **People – Get Ready** (Good song).

The North and South Moon Nodes:

Although the **South and North Moon Nodes are still in Capricorn-Cancer** the South Node (history/the past/the past 2,000 years>Pisces Age) in this conjunction is in the **12th ‘house’**, the ‘house/sphere’ of Pisces = *final dissolution and collapse of the old order*. The **North Node** (higher soul-vocation work for the present time) is in the **6th ‘house’** = day to day active creative service and health and purification and healing. Just what humans are being forced to do while in lockdown. The attitude in this regard should be – great to purify and be healthy, and to be creative (in small daily ways re the lockdown) AND SERVE OTHERS TO THE BEST OF ONES CREATIVE ABILITY. In the **beginning of July** the Nodes will move into **Sagittarius** (South Node) and **Gemini** (North Node) – and switch into the two signs governing **education-knowledge-understanding-communication**. This will especially be focused in the spiritual educational realm including re meditation/dreams/guidance/etc (Sagittarius), and communicated via IT to humanity (Gemini). Interesting that the **North Node will be in the 12th ‘house’** and this might mean that many people will start receiving information on past lives (re meditation/dreams) and also on facets of the divine Plan for humanity re the present-future.

The Moon in Virgo:

This is a very interesting chart in that all the placements (outside of the Moon and South Node = ruling history/the past) are in the *lower hemisphere*, connected to the self and to self-awareness, self-healing and self-evolution and transformation. In other words humanity (and all its units) are being forced to deal with itself/themselves, and no longer (for a time) with the larger outside world (of normal functioning politics/economics/business/education/the arts/sports/etc/etc). The *normal traditional functioning* of humanity and the nations and humans has come to a close, for now (with the pandemic, etc) - all is in a ‘very different world’. Humanity is **facing itself**, as are the nations, as are all humans, be they individuals, partnerships/marriages, families, etc. Apparently many marriages/partnerships are falling apart (divorce proceedings have increased 50% in the US since the lockdowns. Partnerships and families are being put under huge pressure, as they ‘face themselves’, which many people are not used to as before this lockdown time they ran hither and thither (work/travel/social events/sports/etc) and did not relate to one another as real human beings. Now they are forced to do this, and many conflicts arise. There is nothing wrong with such conflicts – what is wrong is when people run away from this vital human transformation issue, which cannot be escaped because ‘where can one escape from human relationships’?

This, by the way, brings us on to the issue of the **1st initiation** (ruled by Leo-Virgo as we explained in past articles, and their connection to the January conjunction). The **Moon is in Virgo in the 8th ‘house’** meaning that attempts to ‘control’ this pandemic situation (= the Moon and Virgo are both connected to ‘control’) are futile. The normal instinctive re-active fear-ridden control mechanisms (Moon in Virgo) of humans/governments/economic powers/secret services/etc are going to prove futile, for this is a collective and enforced (by the superhuman kingdom) ending/death of the Age of Pisces. The 8th ‘house’ is governed by Scorpio (8th sign), connected to ‘death>transformation’ of the ego. And **Mercury**, which **governs Virgo**, is **conjunct Neptune in Pisces**, and thus the total dissolution and collapse (= death) of the old order are on the cards. These old powerful controlling forces are in great fear and distress as they no longer know what is happening and how to control things. As Madonna says ‘*The virus is an equaliser*’ (No one can escape it, no matter who. Madonna was attacked for her statement but she is right on). Huge numbers of humanity are in the process of ‘preparing for and taking’ the 1st initiation. First comes ‘self-purification’ (occurring via the virus) which produces far more ‘self-awareness’, and this is then followed by the first stage of major initiation, the so-called Second Birth, or the first major stage of Self/Soul Awareness and Realisation. Thus the **Delphi Oracle** - ‘*Man/Woman – Know Thyself*’. And also ‘*All Things in Moderation*’, part of the new economics, and way of living. This = **Virgo**, not controlling others or life, but **controlling and disciplining ones own daily life**. The coronavirus and lockdowns are forcing this about.

*** The Taurus IC/4th House Cusp:** Governing the **home-family situation**. Ruled by **Venus**, the female planet. Indeed women as a whole (mothers/wives/partners) are rulers of the ‘home-family’ situation, and women (mothers/wives/partners/etc) are the ones who will bring order, organisation, creativity, healing, caring, nurturing, sharing, grounding into this whole area. Everyone will now learn about the great creative healing capacities of women, and ‘why’ the home sphere is so important, which, under normal traditional circumstances, is relegated to a far second place in our corrupted male-dominated societies. Time for women to take over things, and teach the men (and sons) how to take responsibility in the home-family situation.

* **The Scorpio Midheaven:** Higher Goal of this Conjunction. **Rulers Mars and Pluto.** The supreme all-encompassing radical transformation of politics/economics/business/nations/societies/human race/humans. The end of one old order in this regard. **Ruler: Pluto-conjunct Jupiter in Capricorn** – saying the same thing. **Mars – conjunct Saturn** – beginning of ‘seeding’ of new national/social/world political-economic order in the above regard. As can be seen these two rulers of Scorpio are in the two major conjunctions in this chart, which only goes to show that the old order is being destroyed (Pluto) while the new order is being ‘seeded’ (Mars).

The Aries Monthly and Full Sun-Moon Cycles

This Jupiter-Pluto conjunction is occurring in the **Aries monthly Cycle** which starts off the new Astrological Year so whatever occurs as a result of this April 5 conjunction is the **‘key’** to what is going to unfold throughout this Astrological Year. Be Aware of this and prepare for this as best as possible (inwardly and outwardly). On **April 8 is the Aries Full Sun-Moon Cycle** (unfolding directly April 8/9/10/11) and this will reveal in an even more intense direct fashion the Aries ‘seeds’ of this Astrological Year (which unfolds until March 20, 2021). The two rulers of Aries are **Mercury** (soul) and **Mars** (personality/expression). **Mercury is in Pisces** at the time of the conjunction so this signals the ongoing collapse and destruction of the outgoing Age of Pisces (as re the virus>economic collapse, etc, etc) while **Mars will be in Aquarius**, signalling the ‘seed’ beginnings of the new Age of Aquarius, to be largely implemented by the younger generations (= Aries/Mars in Aquarius) and it would seem also by **revolution**, for once the general public (especially in the US/UK/France/Italy/Spain/Israel/Brazil/Etc) see that they have been deceived and conned by the corrupted powers that be there is going to be a huge uprising and revolution. This has already begun to happen in the US. Once people are no longer able to pay their rents, buy food, etc, etc they will revolt and the governments will be overthrown or forced to resign. All will soon be ‘up in the air’ and this is why the superhuman kingdom (Jupiter) will begin to intervene in global affairs. We are heading into Apoca-Lypse and maybe even Armageddon, what might be called the final battleground between these opposing light-shadow Forces as the old Age ‘goes into its death throas’ and the new Age of Aquarius begins to be ‘born’. This initial ‘birth’ occurred in February 1962 (remember The Beatles and the 60’s revolution), and now it approaches its second and more direct ‘birthing’ for new (Planetary) Astrological Ages have to be inaugurated by spiritual initiates, but this time, because humanity is at last attaining global consciousness, it will be the World Avatar (for the first time in history) who does this Inauguration. But first the final Battle, and the collapse of the old order. A true Global Shakespearean ‘Tempest’ Drama. Best to Flow with the Global Tempest Tide.
