

The Global Pandemic and the Jupiter-Pluto Exact Conjunction on April 5

By Errol Weiner – Transpersonal Astrologer

This is a section of a Booklet that I have put together on the triple global pandemic and its gross and subtle causes and effects. I say 'triple' because this is an interconnected pandemic (so to speak) – the 'global' tsunami coronavirus, the economic meltdown (which was already on the books but has been greatly accelerated by the coronavirus and national-global lockdowns), and the climate change-global warming disasters (wildfires, floods, earthquakes, volcanic eruptions, hurricanes, dust storms, etc). Conventional society (governments, media, general public, etc) are only focused on the *effects* and the so-called 'war on the virus' without putting any serious consideration into the *subtle causes* of this pandemic, of which the triple-pandemic itself is the 'manifestation and effect'. All that is happening was predicted in the *New Testament, and the Arcane (Esoteric) Teachings (of the Tibetan Master DK) and of many astrologers*. The astrological 'prediction' is connected to the **January 12, 2020 exact conjunction of the Sun>Saturn>Pluto>Mercury in the sign of Capricorn**, the 10th (Midheaven) Archetype of the zodiac that governs politics, economics, nations, and societies as a whole. This 'destined' 2020 grand conjunction indicates that there is a **deep Purpose** to this pandemic and all its complex repercussions. The *first phase* of this pandemic was from January 12 to beginning April. The *second phase* will be from April 5 to end June, and the *third and final phase* will be from beginning July to November 12>December 21. This article deals with the second phase, when **Jupiter and Pluto make exact conjunction in Capricorn**.

Jupiter and Pluto make exact conjunction (reach that same degree) in Capricorn on April 5 (and again June 30, and November 12, 2020). This conjunction will manifest in a number of interconnected ways, which will add on to the first phase. It is vital that people understand the deeper national and collective Purpose of this global pandemic because it is not just occurring as something 'bad'. It in fact has a historically profound purpose of 'ending one major (2,000-year) phase of human evolution and preparing humanity for the next major phase of human evolution'. In astrological science this is referred to as the completion of the outgoing **Age of Pisces** and the beginning of the new Astrological **Age of Aquarius**. It should be obvious to anyone using their intelligence that such a huge 2,000-year cycle global 'death>rebirth' transformation could only occur via tremendous upheaval and change, and thus the triple pandemic and its present>future long term astronomical repercussions in every field of human activity. Here are some of the major ways in which this second phase will manifest:

* **Everything that has been and is now Happening (it is a 'Global Happening') will greatly expand in both a positive>light (Jupiter) and negative>dark (Pluto) fashion.** The Forces of Light & Shadow will both increase in power and influence, and this will become self-evident from events occurring around the planet (In this sense people should be aware of their dreams because Jupiter is connected to dreams and what they reveal, be this symbolical or literal). Actually this conjunction reveals another great mystery - that **Light & Shadow** are two parts of the same divine Drama (In religious cum spiritual terminology this duality is connected to **Christ and Lucifer**, for one (Christ/Jupiter) is the head of the superhuman kingdom of the Earth and the other is the head of the material kingdoms of the Earth (Lucifer/Pluto).

* **The coronavirus will start to be better contained (Jupiter) while simultaneously spreading rapidly around the world (Pluto).** Many humans will begin to better realise (Jupiter/Intuition/Illumination) that the **real deadly pandemic virus** is the human ego and its 'out of control' political>economic>social>religious destructive behaviour (Pluto/the Shadow), and that the coronavirus is a **manifestation** of this human virus. Cause (Jupiter) and effect (Pluto) will need to be integrated, for only when the real causes of this triple-pandemic are recognised and dealt with can healing (Jupiter) begin to occur. The virus itself is an instinctive intelligence and controlled by the Angelic Kingdom, and 'used' to bring about certain radical and necessary changes in humanity and human evolution. This pandemic is going to unfold until **November-December**.

* **Certain potent figures will emerge into the light (so to speak) who represent both these Light and Shadow Forces** – it will be obvious who they they are and what they represent (or 'Let thine eyes be single' - 'SEE with the Single Eye of Intelligence>Intuition'). This may well be the time when Lucifer (or some of his agents) appear to the masses to instigate fear and paranoia and sway people back to the past and its illusory safety. At the same time agents of the Light will appear (in one form or another) to do the opposite – present deeper truths about the world situation and its deeper purpose, and move people towards humanities

new future (**Jupiter is the higher Love-Wisdom soul-ruler of Aquarius**, while **Pluto is one of the soul-rulers of Pisces**, the purger>destroyer>meltdowner>transformer of the past and of that which is dead and gone. **Neptune** is the other ruler of Pisces, and the media, etc are referring to this pandemic as a *virus-tsunami* [= Neptune's 'watery' keynote re the *over-whelming of the ego*] and an *economic meltdown* [Pluto's keynote]).

c) **The global economy will continue to meltdown and collapse as a natural result of the coronavirus and other factors like the huge national and global debt crisis (The US has a \$23 trillion national debt and global debt is around \$250 trillion)**. At this stage of the economic game the US Federal Reserve is printing trillions of \$'s and transferring this to Wall Street and the Banks to prop them up. This is actually socialism (why then do they all hate Bernie Sanders?) for the super-rich and also high-corruption. The first \$2 trillion failed to do this and literally vanished down the tube; the next \$2.5 trillion worked as Wall Street went up the high rails, but this is a grand illusion and anyone who knows about Stock Markets (and the law of gravity) should realise this. It is like a ball that has been thrown high up in the air – but *'what goes up must come down – in this case with a very big meltdown bang'*. This is the third repercussion of this conjunction. This false deceptive Stock Exchange expansion (Jupiter) will be destroyed and wiped out (Pluto) and the old economic unjust corrupted system will collapse in very quick timing (Trump wants the US to go back to work in April because, at this rate, his hotel, tourist resort and property businesses will go down the tube. He and his family might well go bankrupt, so he wants the US economy to go back to work and be saved. If a few million Americans die as a result, well... But if this occurs the virus will spread like an 80-metre tsunami and the US economy will go totally broke, so CATCH 22. In one week alone 3.3 million Americans applied for unemployment benefit, the greatest weekly unemployment rate in US history, and even greater than the 1929 depression. All this while Wall Street and the Corporations and super-rich seemingly got richer. But the 'reaping is coming' and cannot be stopped).

d) The possibility that **global warming** (Jupiter, the big hot planet) will produce **major climate change** upheavals and catastrophies (Pluto) will be on the cards. At the same positive time David Attenborough's new BBC TV series **'Seven Worlds – One Planet'** will be broadcast globally (In **Africa** this will be broadcast on BBC Earth from March 29 at 4 pm). This is also a perfect example of combined Jupiter (Construction) Pluto (Destruction) global hand-in-hand activity.

It should be obvious that the massive interconnected repercussions of all the above will be beyond human comprehension, and these will unfold until the *third phase* (Beginning July to November 12>December 21). IF people are *aware* they will recognise that this is a **huge planetary battle** between the Forces of Light (serving the present>future of humanity) and Shadow (serving and holding on to the past and its corrupted limitations). It is **NOT** a 'war against the virus'. It is indeed a 'war against human ego-ignorance, fear, greed, corruption, complacency and arrogance'. It is connected to what is referred to in Christianity as the *End of Days*, but this means the **End of the Age of Pisces**...and the *coming Appearance of the Avatar of Aquarius (the World Avatar)* who will *inaugurate the new Age of Aquarius*. *The pandemic crisis is 'preparing and initiating' humanity for this historical Appearance and Inauguration, which will be the greatest Event in human history*. *When the World Avatar appears 'Things will Change in the Twinkling of an EYE'*.

Last but not least we should comprehend the real literal meaning of three terms which provide a 'key' to all the above. * **Catastrophe** from the Greek 'cata-strophe' meaning 'to look down' (to matter/to be trapped by matter). * **Disaster** from the Latin 'disa-ster' meaning 'to be separated from the Stars' (Stars being the symbol of Spirit/Soul/Higher Consciousness). * **Apocalypse** – from the Greek 'apoca-lypse' meaning 'new revelation' (A very positive and not negative term). What is happening is not 'bad', it was/is 'destined'. There will of course be much pain and suffering, and we all need to be deeply empathetic and compassionate in this regard, but since when has humanity really changed without great crisis? Those that serve the greater good of humanity and the Planet must also seve the new present>future and *let go* of the outdated corrupted past. As the great Sufi Master Shams once said *'Do not grieve for the Long Darkness; it will be followed by the Great Brightness'*. We are in the times of *Apoca>lypse*.
